

FIGHT EXPECTED ON NOLAN BILL

"\$3-a-Day" Federal Employment Measure May Defer House Recess Plan.

The House plan for three-day recesses until the Senate catches up on pending legislation, may be delayed when the Nolan \$3 a day compensation bill for government employees is called on Monday.

Representative Nolan will ask for consideration of the measure under a suspension of the rules, and there is no disposition on the part of the Democratic leaders to have it considered. It requires a two-thirds vote to suspend the rules and the failure of the motion causes the matter to remain on the calendar.

The bill fixes \$3 a day as the minimum salary for all employees of the government and the District of Columbia except men in the military branch of the government and persons receiving subsistence in addition to their compensation.

It is a very attractive bill to those in the government service who receive less than \$3 per day, and its passage would make excellent political capital particularly in labor centers, but the Democrats have no intention of letting the minority get the credit for such legislation. Representative Nolan, a representative of organized labor, is a Republican, but apart from that, economists of the House oppose the measure because it is claimed that the government Treasury is not in the financial condition to stand such a revolutionary revision of the existing scale of wages.

Consideration of the Nolan bill will keep many members of Congress here who would otherwise be campaigning. They propose to put the measure over to the next session and not have it interfere with the legislative program agreed upon by the Democratic leaders.

The value of the British army horse on an average is between \$200 and \$250.

ON MOONLIGHT RUNS.

Steamer Gratitude Making Nightly Trips Down River.

Evening trips on the Potomac have always been popular, and to meet a public demand since the big steamer St. Johns started making moonlight trips on Mondays only, the steamer Gratitude has been placed in that service. She is scheduled to leave here each evening at 7 p. m. from the Colonial Beach line pier, run down the river to about Indian Head before turning around to start for home where she is due to arrive about 11 p. m. The Gratitude is one of the prettiest and most comfortable steamers on the river, and the party that will be taken aboard her each evening will be strictly limited to 300 persons.

CHERRYDALE FIREMEN TO HOLD ANNUAL FETE

Funds Will Be Used to Construct Building to House Wagons and Truck of Local Brigade.

The Volunteer Fire Department of Cherrydale, Va., is taking unusual steps to make its sixth annual festival a big success. The festival will be held on July 17, 18 and 19. Funds taken in will go toward constructing a fire engine building on a site which the "company" has already bought and paid for.

Five years ago the Volunteer Fire Department of Cherrydale consisted of one truck. Now the company possesses six chemical wagons and a fully equipped hook and ladder truck. Every able-bodied man in Cherrydale is a member of the department.

The festival will be featured by the selling of "things to eat" and by a country store, which will be under the direction of Jack Spates. William McCloskey will run a paddle stand. The men in charge of the other features are William Walker, W. E. Greenwell, Herbert Tucker, and Thomas Addison. General management of the celebrations will be under John W. Vermillion, assisted by Harry Clark and John McCormick.

NAVAL MILITIA TO LEAVE TODAY

Citizen Sailors Will Cruise in Atlantic on Nine Battleships of Reserve Fleet.

Secretary of the Navy Daniels announced yesterday that the annual cruise of the naval militia on the Atlantic coast would begin today and continue for two weeks. All naval militia organizations will participate with the exception of the organizations on the Pacific Coast.

The cruise will be made on the battleships Kentucky, Alabama, Illinois, Rhode Island and Louisiana, of the Atlantic Reserve Fleet. Rear Admiral J. M. Helm will be in command.

The ships have been distributed at Boston, New York, Philadelphia and Norfolk. The naval militia will concentrate at these cities, and each organization will go on board the vessel to which it is assigned today. The ships will rendezvous at Block Island Sound on Monday morning.

It is the intention of the Navy Department to man the nine battleships as they would be manned in time of war. An officer of the regular navy will be in command of each and will be assisted by a limited number of regular naval officers. The crews will be made up of approximately 40 per cent of the regular navy men and the balance, both officers and crew, will be made up from the naval militia.

Purely Personal

Alfred J. Crandall has been given a probationary appointment as clerk in the Bureau of Census.

Charles J. Conditine has resigned as messenger boy in the office of the Secretary, Department of Commerce.

Richard J. Gross, clerk in the Bureau of Standards, has resigned.

Miss Maud C. Gunther, teacher of biology at the Eastern High School, is spending the summer in Massachusetts.

BILL ASKS \$800,000 FOR DISTRICT ARMORY

Among the items in the public buildings and lands bill to be reported to the House on Monday will be an appropriation of \$800,000 for a new armory for the National Guard of the District.

The proposed armory is to be erected on government property situated between the new National Museum and the Department of Agriculture Building.

The appropriation sought was \$1,750,000 but the committee feels that the lesser amount will suffice.

After experiments covering several years rubber trees have been successfully transplanted from the banks of the Amazon to points in the interior of Brazil.

One Price Every Day in the Year

Save \$1.00 On the Price of Wonder Clothes for the Rest of This Month

The raw material market has gone crazy and we have maintained our old prices just as long as our stock which we purchased at the old established prices would permit.

We have decided to raise the price on August 1st to \$11.00 and give you the same pure wool fabrics and fine tailoring instead of giving you inferior clothing at the old price of \$10. Future business and our guarantee are at stake.

Remember, Until August 1st, You Can Still Buy Wonder Clothes for

No More **\$10** No Less

The Time Is Drawing Near When What Happens Every Season in the Clothing Business Will Come to Pass Again

Remember the clothing advertising at the end of last season?

Remember how the clothing merchants yelled in a strong chorus about "cut price sales" and "clearance sales" and all that sort of talk?

And do you remember, too, that the dominating item in all the "sale" ads was low price?

Very little mention was made of style or fit, or fabric—price, price, price; that was all you were told of—then. Remember?

Yet when the season started and they talked about those same clothes their talk was not price, but "how good," "how fashionable," and "how perfect the fit!"

The circle is nearly complete again, midsummer is near and the

high-price clothier once more gives you his siren song of cut prices. The quality of the clothes is smothered by price talk.

A few months hence the style, quality, and fit of clothes will be offered to you again—and so it goes.

They get the long price when the season is young and take less when the season wanes. WHAT DOES IT ALL MEAN?

It means just this: You are asked to pay from 80% to 100% more at one time than you are asked at another for the very same suit.

It means that the high-priced clothier either makes an exorbitant profit early in the season or less money at the end of the season (and no one is in business to lose money at any time).

WONDER CLOTHES

—are sold at the same price all the time—\$10.00; no more, no less. We have no "special sales," as we make no inferior goods to run sales. Wonder clothes are sold from the factory to you. No middleman's profit.

Wonder clothes at \$10.00 are equal to any suits sold by any clothier at \$18.00. That we guarantee.

If you don't think we save from \$5.00 to \$8.00 on any Wonder Suit you buy you need only say so to get your money back.

"SUFFS" TO HEAR SHOUSE.

Kansas Solon Will Speak Against Militarism.

Representative Jovett Shouse, of Kansas, has been chosen by the National

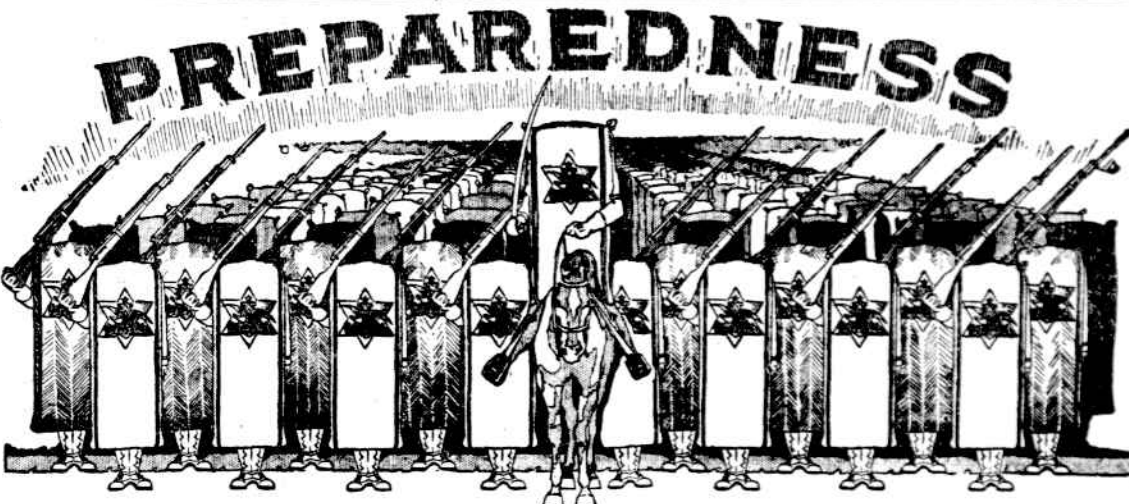

Council of Women Voters as the speaker from Washington to address them at their national convention at Cheyenne, Wyo. The convention will be held from July 26 to 29 and will be composed of women delegates from all the enfranchised States.

Interest centers about the message Mr.

Shouse will give the women in answer to their question as to how they may help the women in the rest of this country to gain the ballot in the quickest way. "I will tell them," said Mr. Shouse when interviewed, "what their cause must make its way through educational rather than militant lines."

Asks Details of Contract.

The House yesterday passed a resolution, introduced by Representative Greene, Republican, of Massachusetts directing the Secretary of War to transmit detailed information regarding the contract for the construction of the naval collier Number One.

Here's proof of the value of being prepared

We are for National preparedness.

We have proved the value to any organization, whether it be government or manufacturer, of being prepared for the unexpected.

It has been an established rule of this institution to lay in our supplies of materials far in advance of their actual need.

We've done this with the Saazer Hops which we use exclusively in Budweiser, Michelob, Muenchener and our new soft drink Bevo—always a two-year advance supply. Preparedness.

During the summer of 1914, one of our officials, while on his annual hop buying trip abroad selected and purchased 775,000 lbs. (1550 bales) of the choicest Saazer Hops—and had them shipped to this country before the embargo was rigidly enforced in March, 1915—preparedness. Add this to the large stock on hand, and you will see how secure preparedness has made our position.

Our supply is sufficient to last at least until the closing days of 1918.

Preparedness pays.
